Full Stack Developer with 5+ years of experience in web development, transitioning from **frontend development** to a more **full-stack role**. I am currently working at **Anima People**, where I apply my expertise in **Next.js, React, Tailwind CSS, Node.js (Fastify), Prisma ORM, and PostgreSQL** to create scalable, high-performing web applications. Known for my problem-solving abilities, adaptability, and strong collaboration skills. Passionate about continuous learning, leveraging hybrid cloud and AI technologies, and delivering high-quality, scalable web applications.

Work Experience

Full Stack Developer

UK • Full-time • 11/2024 - Present

Anima People

- Working on a psychometric testing app designed to evaluate workers & help maintain company security by identifying insider threats and counterproductive behaviors.
